## Godmorgen!

Vi håber, I alle har fået en god start på februar. Vi går efterhånden mod lysere tider, og man begynder så småt at kunne mærke dagene blive længere og længere. Hvor dejligt!

Vi ønsker jer en god uge i Agro Food Park.

De bedste hilsner

### Ny godkendelsesfunktion af mødeskærme

Vi er glade for, at I har lyst til at bruge vores mødelokaler og deres tilhørende faciliteter, men vi oplever desværre i for mange tilfælde, at mødelokalerne bliver booket og derefter ikke brugt, hvilket er til gene for andre lejere, som gerne vil bruge mødelokalet.

Vi vil derfor opfordre jer til at huske at afmelde jeres mødelokalebooking hurtigst muligt, når I ved, I alligevel ikke får brug for et booket lokale.

Yderligere skal I fremadrettet godkende jeres møde på mødeskærmen, som sidder udenfor lokalet ved døren. Hvis lokalet ikke bliver godkendt 15 minutter efter planlagt mødestart, bliver mødet slettet i Pronestor og lokalet bliver ledigt til andre, som kan få gavn af lokalet. Dette gælder kun for lokalerne i Agro Food Park 15 og 26, der har skærme.

På forhånd tak for jeres forståelse.

Med venlig hilsen

## Forårsbanko 2023

Deltag i årets forårsbanko torsdag den 16. marts kl. 16.00- ca.18.00 i kantinen i AFP 15.

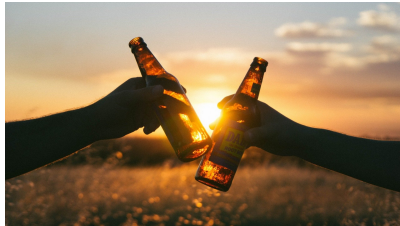

Det koster 100 kr. at deltage og du kan spille med op til 3 plader.

[Tilmelding via dette link til Place2Book.](#)

Vi vil servere øl, sodavand, lidt snacks + lidt ost, pølse og brød kl. 18.00.

Kunne du tænke dig at sponsorere en gave? Send en mail til [info@agrofoodpark.dk](mailto:info@agrofoodpark.dk). Alt tages imod med kys-hånd.

## **Iværksættere lancerer crowdfunding kampagner og du kan hjælpe.**

Tirsdag d. 21.feb. kl. 11.00-13.00 kan du møde iværksættere i kantineområdet i Agro Food Park 15.

Iværksætterne lancerer crowdfunding kampagner hvor de søger din hjælp. Kom og få en snak med iværksætterne, smag og hør om deres produkter og støt deres crowdfunding.

Food & Bio Cluster Denmark har flere gange samarbejdet med Coop Crowdfunding, og med stor succes for deltagerne, som tilsammen har indkasseret mere end 500.000 kr. via crowdfunding. Penge, der for de fleste iværksættere falder på et tørt sted, bruges til alt lige fra produktudvikling til optimering af markedsføring. Læs mere [her](#).

## **Hjerteligvelkommen til Nature Energy i Agro Food Park 26**

Nature Energy er førende i verden til den proces, det er at omsætte de mange millioner tons biomasse til grøn og CO2-neutral gas på den mest effektive måde. Vi henter biomasseaffald fra landbruget, virksomheder og husholdninger og bringer deres næringsstoffer tilbage til landbruget, så de genbruges i ny fødevareproduktion. Det er cirkulær økonomi, når det er bedst. Samtidig sikrer vi os hele tiden, at det omkringliggende samfund rundt om vores biogasanlæg bliver generet mindst muligt ift. eksempelvis transport og lugt.

Nature Energys ambitioner om at bidrage til den grønne omstilling sammen med landmænd, virksomheder og borgere rækker videre end Danmark. I de kommende år vil Nature Energy investere i nye, store biogasanlæg i andre europæiske lande og i Nordamerika.

## Hjertelig velkommen til Sustainor i Agro Food Park 26

Hej til alle vores nye naboer!

Vi glæder os til at blive en del af fællesskabet i Agro Food Park. Og vi håber at vi kan inspirere til at arbejde mere strategisk med bæredygtighed. Vi har en grundholdning om at virksomheder som udgangspunkt er sat i verden for at tjene penge. Bæredygtighed er en værktøjskasse, som ledelsen skal anvende for at gøre virksomheden mere robust og profitabel.

Vi var et af de første konsulenthuse i branchen i Danmark, og er nu et af de førende – og vækster hele tiden. Vores 16 ansatte er spredt ud over 6 lande, men vores nye hovedkvarter er her i Agro Food Park.

Vores mål er at alle europæiske virksomheder under 500 ansatte kan anvende vores IT platform (Sustainor Backbone), og så undgå at ansætte CSR fagpersoner internt i virksomheden. Vi har fokus på at arbejdet med bæredygtighed skal være både enkelt, sjovt og profitabelt.

Konkret sælger vi typisk en kombi af konsulentydelse og subscription på vores IT platform. Det drejer sig typisk om udvikling af en bæredygtighedsstrategi og konkrete programplaner. Indhentning af ESG data. Udvikling og undervisning i ESG politikker. ESG kommunikation og årlige afrapporteringer. Udvikling og drift af systemer til ansvarligt indkøb. Klimaregnskaber (Scope 1+2+3 og livscyklusanalyser - LCA). Sporing af skovrydning via AI. Alle data bliver så styret i vores eget IT ESG-system (Sustainor Backbone).

Vores kunder har hovedsageligt hovedkontor i Europa, lige fra mikrovirksomheder med én ansat til virksomheder med over 100 milliarder i omsætning.

Har du spørgsmål om bæredygtighed, så vil vi meget gerne hjælpe. Tag endelig fat i os – den indledende hjælp er altid gratis 😊

Mvh  
Dennis Thaagaard  
CEO & Founder, Sustainor

## Få en guidet rundtur i Agro Food Park

I dag kl. 10.00 kan du og dine kollegaer komme med på en guidet rundvisning i Agro Food Park. Her bliver I klogere på, hvem der bor her, hvorfor Agro Food Park er skabt og ikke mindst hvilke fordele du kan glæde dig over, når du arbejder herude.

En oplagt mulighed for nye medarbejdere - men du er også meget velkommen, hvis du er gammel i gårde :-)

Rundvisningen starter ved check-in stationen i nr. 13, og du skal blot møde op kl. 10.00, hvis du vil være med. Sidste stop på turen er i kantinen i nr. 15.

### New approve function on meeting screens

We are pleased to see that everyone is making great use of our meeting rooms and their facilities. However, we have unfortunately experienced in too many cases where meeting rooms are being booked without being used.

Due to this, everyone must from now on approve their meeting on the meeting screen located outside of the meeting room.

If the room is not approved within 15 minutes, the meeting will be deleted, and will be free for others to use. This only

applies to the meeting rooms in Agro Food Park 15 and 26, which have screens.

Thank you in advance for your understanding.

Best wishes  
Agro Food Park

## **Entrepreneurs launch crowdfunding campaigns and you can help.**

You can meet entrepreneurs in the canteen area in Agro Food Park 15 on February 21<sup>st</sup> at 11.00-13.00. The entrepreneurs launch crowdfunding campaigns where they seek your help. Come and have a chat with the entrepreneurs, taste and hear about their products and support their crowdfunding.

Food & Bio Cluster Denmark has collaborated with Coop Crowdfunding several times, and with great success for the participants, who together have collected more than DKK 500,000 via crowdfunding. The money is used for everything from product development to optimization of marketing. Read more [here](#).

## **Welcome to Nature Energy in Agro Food Park 26**

Nature Energy is market leader in turning million tonnes of biomass into green, CO2 neutral gas as effectively as possible. We collect and deliver biomass from businesses, agriculture and households and return the degassed biomass to the agriculture that recycles nutrients. This is circular economy at its best. At the same time, we always make sure that the

surrounding community around our biogas plants remains as undisturbed as possible by transport and odours.

Nature Energy's ambitions to contribute to the green transition together with farmers, businesses and people reaches beyond Denmark's borders. Over the next few years, Nature Energy will be investing in new large biogas plants in other countries in Europe and North America.

## Welcome to Sustainor in Agro Food Park 26

Hello to all our new neighbors!

We look forward to becoming part of the community at Agro Food Park. And we hope we can inspire to work more strategically with sustainability. We have this basic attitude that companies are basically set up in the world to make money. Sustainability is a toolbox that management must use to make the company more robust and profitable.

We were one of the first consultancies in the industry in Denmark and are now one of the leading – and keeps growing all the time. Our 16 employees are spread over 6 countries, but our new headquarters is here in Agro Food Park.

Our goal is that all European companies with less than 500 employees can use our IT platform (Sustainor Backbone), and then avoid employing CSR professionals internally in the company. We are focused on making work with sustainability both simple, fun, and profitable.

Specifically, we typically sell a combination of consulting services and subscription to our IT platform. This typically concerns the development of a sustainability strategy and specific program plans. Acquisition of ESG data. Development and teaching of ESG policies. ESG communication and annual reports. Development and operation of systems for responsible purchasing. Climate accounts (Scope 1+2+3 and life cycle analyzes - LCA). Tracking deforestation via AI. All data is then managed in our own IT ESG system (Sustainor Backbone).

Our clients are mainly headquartered in Europe, ranging from micro businesses with one employee to companies with over 100 billion in revenue.

If you have questions about sustainability, we would be happy to help. Get in touch with us - the initial help is always free 😊

Sincerely  
Dennis Thaagaard  
CEO & Founder, Sustainor
