## Godmorgen!

Hov! Plejer det ikke være mandagsnyt? Jo, det gør det, men vi har lige nogle helt ekstraordinære nyheder, vi er nødt til at dele med jer inden på mandag.

De bedste hilsner  
Agro Food Park

### Nye kaffemaskiner i Agro Food Park

Som I alle har set, var vi for et par uger siden i færd med at teste kaffemaskiner til den nye bygning Agro Food Park 26. Efter kaffemaskinerne er blevet fjernet igen, har rigtig mange af jer været enormt kede af, at de er væk.

Vi har derfor besluttet os for at købe nye kaffemaskiner. De nye kaffemaskiner bliver mere brugervenlige, og nemme at tilpasse som man vil. De nye kaffemaskiner som fremover kommer til at stå på diverse kaffebarer i Agro Food Park 13 og 15 er af mærket **Moccamaster**.

Med disse kaffemaskiner ønsker vi at gøre det muligt for alle medarbejdere i Agro Food Park selv at medbringe lige præcis den kaffe, man gerne vil have. Vi stiller Moccamaster, kaffefiltre, kopper, mælk og sukker til rådighed, resten skal man fremover selv medbringe.

**Vi håber, at vi med denne ændring tilgodeser alles ønsker, og at i alle igen vil blive glade.**

## Nye kollegaer i Agro Food Park

Det er meget normalt, at man beholder sine udendørs sko på, når man er på kontoret, men det er ikke alles sko der altid er rene. Derfor oplever vi jævnligt i Agro Food Park, at man selv må svinge en støvsuger i ny og næ. Specielt nu hvor der er en byggeplads på den anden side af vejen, har vi lagt mærke til, at der er lidt ekstra snavs på gulvet i de forskellige kontorer.

Vi har derfor besluttet os for at hyrer noget nyt personale til at holde gulvene rene i **Agro Food Park 13 og 15**. Dette er vi enormt glade for, da det også betyder, at vi kan tage noget af presset væk fra rengøringen.

Vi har dog desværre været nødt til at indgå et kompromis. Det nye personale vil være robotstøvsugere af mærket **iRobot Roomba 400**, som er kendt for at støje en hel del. Vi anbefaler derfor, at man tager headset på når man er på arbejde, ellers kan man bruge en af dispenserne til ørepropper, som vi vil sætte op i løbet af næste uge.

Robotstøvsugerne kommer til at kører hver eftermiddag mellem klokken 12 og 16, da de ikke må være i vejen for rengøringen om aftenen.

**Tag godt imod vores nye "kollegaer"!**

---

## Problemer med fjernvarme i Agro Food Park 26

I forbindelse med byggeriet af Agro Food Park 26 har man forbundet fjernvarmen forkert. Dette har desværre nogle konsekvenser. Nogle af jer har måske allerede set, at de på byggepladsen har gravet det store hul som ses på billede her.

En af de mindre konsekvenser er, at byggeriet udskydes med et par uger. For at rette op på fejlen bliver de nødt til at grave Agro Food Park vejen op i stykket mellem **AU og Agro Food Park 13**.

Dette betyder, at vejen fra i næste uge og to uger frem, vil være lukket for alt gennemkørsel. Det vil derfor ikke være muligt at parkere andre steder end på parkeringspladsen mellem Horisont og Agro Food Park 13. Det er vigtigt, at man flytter alle køretøjer, som skal bruges de næste to uger, til denne parkering inden **mandag den 4. april**.

For at forbinde Agro Food Park 26 korrekt til fjernvarmen, vil vi også være nødt til at slukke for varmen i alle Agro

Food Parks bygninger fra på mandag og to uger frem. Vi anbefaler derfor, at man tager sko på, som både er varme, men som også er gode nok til, at man kan gå i dem fra parkeringen og til kontoret. Elektriciteten er dog stadig tilsluttet, så den skal i ikke være bange for.

**Vi håber ikke, at dette kommer til at være for stor en ulejlighed.**

---

## Good morning!

Isn't it usually Monday News? Yes, you are right, but we have some extraordinary news that we need to share with you before Monday.

Kind regards,  
The Agro Food Park Team

### New coffee machines in Agro Food Park

As some of you might have seen, a few weeks ago, we were testing coffee machines for the new building Agro Food Park 26. After the machines have been removed, many of you have been very sad about that they were gone.

Because of that we have decided to buy new coffee machines. The new coffee machines will be more user friendly, and easier to customize as you want. The new coffee machines, that will be installed at all of the coffee stations around Agro Food Park 13 and 15 will be from the brand **Moccamaster**.

With these new coffee machines, we wish to make it possible for everyone in Agro Food Park, to make exactly the kind of coffee that they want. We will provide you with the Moccamaster, coffee filters, mugs, milk and sugar, the rest you will have to bring yourself.

**We hope that with this change, everyone's wishes will come true, and that you all will be happy once more.**

---

## New colleagues in Agro Food Park

It's very common to keep your outdoor shoes on, when you are at the office, but not everyone's shoes are always clean. Therefore, sometimes we must do some vacuum-cleaning ourselves around the office. Especially now that Agro Food Park 26 is being built, and there is dirt everywhere outside.

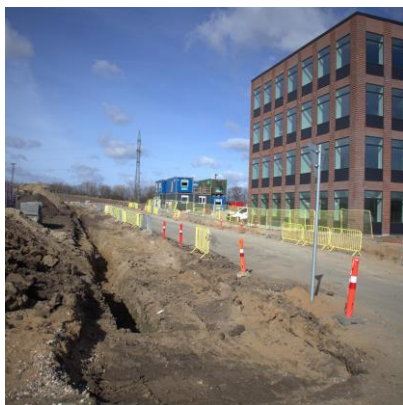

We have therefore decided that we want to employ a few new colleagues to keep the floor clean in the offices in Agro Food Park 13 and 15. We are very happy about this, since we also hope that I will take some of the workload off the cleaning team.

Unfortunately, we have been forced to make a compromise, and the new colleagues will be robot vacuum-cleaners. To specify, it will be the model iRobot Roomba 400. The Roomba 400 is known to be quite noisy, so we advise that you wear a headset to work or use earplugs from one of the dispensers that we will be placing around the offices next week.

The Roomba's will be vacuum cleaning everyday between 12 and 16 o'clock. This is to ensure that they are not in the way, when the cleaning staff clean the rest of the offices at night.

**We hope you will give our new "colleagues" a warm welcome!**

---

## Problems with the district heating in Agro Food Park 26

Following the construction of Agro Food Park 26 there has been a mistake, and the piping for the district heating has been connected wrongly. Maybe some of you have seen the large hole on the pictures here that the builders have dug, this is the reason. This unfortunately has a few consequences.

One of the smaller ones is that we have to delay the opening of the new building for an extra two weeks. To correct this mistake, they will also have to dig up the Agro Food Park road between **AU and Agro Food Park 13**.

This means that the road will be closed for alle traffic, from Monday and two weeks on. Because of this it will only be possible to park vehicles, in the parking lot between Horisont and Agro Food Park 13. This means that it is very important that all vehicles you will be using within these two weeks are moved from any other parking before **Monday the 4th of April**.

To connect Agro Food Park 26 correctly to the district heating, we will also be forced to turn off all heating in all buildings in Agro Food Park. This will also happen from Monday the 4th of April and two weeks after. We therefore advise everyone to bring warm and comfortable shoes. Both to keep your feet warm, but also for the walk from the parking lot to your office. It will probably be a good idea to bring a sweater as well. The electricity will still be on, so don't worry about that.

**We hope this will not be too much of an inconvenience.**
