

# AGRO FOOD PARK

*English below*

## Godmorgen!

Juni måned er i fuld sving og det samme er aktiviteten i Agro Food Park. Du kan bl.a. genlæse om vores besøg af bachelorstuderende og drop-in møde, og så er der en lille reminder om at huske at lukke vinduer og døre, og et gratis webinar.

Ha' en skøn uge!

De bedste hilsner  
Agro Food Park

### Præsentation af afgangprojekter – Professionsbachelorer i fødevareteknologi og applikation den 16. juni

Kom og mød 10 spændende afgangprojekter præsenteret af de dygtige professionsbachelorer i fødevareteknologi og applikation fra **Erhvervsakademi Aarhus**.

Kom og hør om **spiselige skeer, plantebaserede smagsgivere, hestebønner, stenbiderrogn, tang** og meget mere.

Afgangprojekterne præsenteres som posters mellem **11.30 og 13.00 i kantineområdet i Agro Food Park 13**. Det er gratis at deltage, og der kræves ikke tilmelding.

### Drop-in møde med Poultry Expertise Centre

Det anerkendte firma Poultry Expertise Centre fra Holland

fokuserer på udvikling og diffusion af viden og innovation. Deres projekter omhandler problemstillinger i den internationale fjerkræsideindustri som emissionsreduktion, alternative proteiner i foder og velfærds problemstillinger.

Kom og mød Poultry Expertise Centre den 1. juli fra 13.00-14.30 i Meeting Room 7, Agro Food Park 15.

Her får du indblik i deres faciliteter og projekter og måske din næste videnspartner.

Det er gratis at deltage, men send gerne en mail til [srma@agrofoodpark.dk](mailto:srma@agrofoodpark.dk), hvis du ønsker at deltage.

Læs meget mere om Poultry Expertise [her](#). Drop-in mødet foregår på engelsk.

---

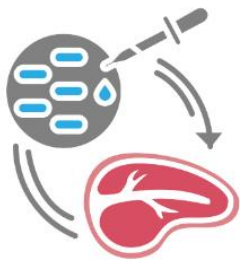

### Husk at lukke vinduer og terrassedøre

Trods skiftende vejr er sommeren over os, og mange åbner derfor deres vinduer og terrassedøre rundt på kontoerne. Det er vigtigt at du husker at lukke igen, inden du forlader din arbejdsplads.

Vi har mange unødvendige udkørsler fra G4S som vi gerne vil undgå.

---

### Cultured Meat - Opportunities and challenges in 2022

Deltag i dette gratis webinar den 23. august fra 09.00-13.00. Oplægget foregår på engelsk og du kan læse meget mere i den engelske version. [Tilmed dig via linket her](#).

**Good morning!**

June is already going at full speed and the same is the activity in Agro Food Park. You can re-read about a visit from bachelor students and a drop-in meeting. We also have reminders about shutting your windows in the office and a free webinar.

Have a great week!

Kind regards,  
The Agro Food Park Team

### **Presentation of graduated projects – PBA in food technology and application June 16<sup>th</sup>**

Come and meet ten exciting, recently graduated students from food technology and application, **Business Academy Aarhus**, when they present their final projects.

Hear about **edible spoons, plant-based flavorings, horse beans, lumpfish roe, seaweed** and much more.

The projects are presented as posters between **11.30 and 13.00 in the canteen area in Agro Food Park 13**. It is free to participate, and registration is not required.

**The presentations will be in Danish.**

---

### **Drop-in meeting with Poultry Expertise Centre**

The highly recognized Poultry Expertise Centre from Holland focuses on the development and diffusion of knowledge and innovation. Their projects address issues in the international poultry industry like emission reduction, alternative proteins in feed and welfare issues.

You can meet Poultry Expertise Centre on July 1<sup>st</sup> from **13.00-14.30 in meeting room 7, Agro Food Park 15**. Here you will get insight in their facilities and projects and maybe find your next knowledge partner within poultry.

Participation is free of charge, but please send an e-mail to [srma@agrofoodpark.dk](mailto:srma@agrofoodpark.dk), if you would like to participate. You can read more about Poultry Expertise Centre [here](#).

## Don't forget to shut your windows and doors

Despite changing weather, summer is upon us and many are opening their windows and patio doors around the offices.

It is therefore important that you remember to shut it again before leaving your workplace.

---

## Cultured Meat - Opportunities and challenges in 2022

AU FOOD and Food & Bio Cluster Denmark invite you to a free online webinar about Cultured Meat on 23<sup>rd</sup> June 09.00-13.00.

A recent report from UN's Intergovernmental Panel on Climate Changes expressed a positive attitude towards cellular agriculture, highlighting its potential to alleviate climate changes.

This also goes for cultured meat. In light of this, the generation of knowledge and dissemination hereof is increasingly important. This especially goes for the knowledge transfer from academia to industry and the public.

In this seminar, we will present the latest on selected activities on cultured meat in the Nordic countries and highlight the future needs in order to bring cultured meat to the market. [Sign up here.](#)
