

# Explaining notes about the Agro Food Park-presentation

## **Slide 1 – Agro Food Park at a glance:**

Agro Food Park is exclusive to companies in the agricultural and food industry.

The industry specialization guarantees that the companies in Agro Food Park are mutually relevant as network and collaboration partners for each other and create innovative power within walking distance.

The 1,200 employees in 80 companies in Agro Food Park ensure that a broad and deep professional knowledge is present.

Agro Food Park ensures that there is access to professional, social and networking activities - both for the companies and their employees. We call this our "m<sup>3</sup>". It is professional collaboration, networking and social activities that bind the companies in Agro Food Park together and ensure continuous knowledge sharing across the board.

## **Slide 3 – Our services:**

Agro Food Park is at the cutting edge of the market development and offers all the possibilities and facilities as companies and employees demand.

Aarhus and Agro Food Park has a unique gathering of knowledge which makes it easy to recruit employees and experts.

The agriculture and food specialized environment give you an easy access to costumers and collaborations and strengthens you brand identity.

Knowledge is shared, and at our professional and social network events throughout the year, new collaborations and opportunities happen.

New knowledge, interaction and community makes a difference!

## **Slide 7 – Our development plan**

In our development plan we show our vision of the future Agro Food Park. The plan defines how we want to create a leading innovation and growth environment for the food industry.

More specific it tells us how to use the 42 hectare of land that surround the existing buildings today. Where which buildings will be in the future and how it all will relate to central squares and infrastructure.
